Professional summary

Frontend Developer with 3 years of commercial experience in building modern, performant web applications. Dedicated to writing clean, maintainable code, optimizing performance, and delivering intuitive user interfaces. Expanding expertise in backend technologies with the long-term goal of stepping into a Fullstack Developer role. Strong team player committed to continuous professional growth and knowledge sharing.

Technical skills

- **Languages & Frameworks:** HTML5, CSS3/SASS, JavaScript (ES6+), TypeScript, Angular, Bootstrap, Docker, Spring Boot, Java (junior)
- **Architecture & State Management:** Monorepo (NX), Redux / RxJS, State Management, Microfrontends
- **Integration & Tools:** REST API, HTTP Interceptors, Git, Webpack, Vite, LocalStorage / SessionStorage
- **Best Practices:** Clean Code, SEO, Responsive Web Design (RWD), Unit Testing, Performance Optimization

Professional experience

Frontend Developer | MuddyCode Sp. z o.o. *January 2024 – Present*

Developing and maintaining a multi-application, modular ERP system built on an NX monorepo architecture.

- **Development of Core ERP Modules:**
  - **Commercial Module:** Implemented contractor dictionaries, customer orders, price lists, and service offerings.

    - **PMS (Production Management System):** Developed core manufacturing logic, release versions, order registries, cost estimation algorithms (features, feature relations, evaluation logs), and master data dictionaries for tools, operations, rates, and qualifications.
    - **WMS, Simulations & LOGS:** Extended simulation registries, managed WMS index groups, and integrated real-time application logging and monitoring modules.
- **Advanced Application Features & Architecture:**
    - **MES (Manufacturing Execution System):** Built production monitoring and control systems (employee time tracking, order execution tracking, material consumption logs, and real-time operation status tracking).
    - **Authentication & Session Management:** Engineered login and session recovery workflows, token expiration handling, automatic session timeout based on user activity tracking, and HTTP interceptors for automatic token refresh and request cancellation.
    - **Data Services (Attachment & QBE Service):** Built *Query By Example* (QBE) request handlers and implemented streaming file upload/download functionality featuring real-time progress tracking via XMLHttpRequest progress events.
- **Dedicated Applications & Web Development:**
    - **Quick Atest:** Designed and developed a Single Page Application (SPA) to streamline order document generation, data filtering, Excel report exports, and dynamic PDF merging.
    - **Corporate & Service Websites (incl. Familiamed):** Maintained and scaled web platforms, optimized overall SEO, refactored legacy codebases, enhanced system stability and performance, and delivered specialized landing pages using Wix.

Education

B.Sc. in Computer Science (Software Engineering) *October 2026*

WSB University in Dąbrowa Górnicza

Courses & certifications

Fullstack Developer Bootcamp | Kodilla *January 2023 – December 2023*

- Practical training in HTML, CSS, JavaScript, React, Bootstrap, Redux, and Node.js.

- Covered unit testing practices and completed 3 practical projects (2 individual, 1 team project).

Languages

- **Polish:** Native
- **English:** Upper-Intermediate (B2)
