

PAWEŁ KRÓL

FRONTEND DEVELOPER

I am a Frontend Developer with 3 years of commercial experience in building modern web applications. In my work, I focus on code quality, continuous technical development, and creating intuitive and efficient user-facing solutions. I am open to new challenges and constantly expand my knowledge, also developing my skills in backend technologies with the goal of becoming a Fullstack Developer in the future. I value teamwork, commitment, and continuous improvement of my skills.
